SEXISM

The definition of sexism is "prejudice, stereotyping, or discrimination, typically against women, on the basis of sex." We get so much sexist behaviors, conditions and attitudes. "You girls belong in the kitchen", "this is a man's conversation, don't try to overwork yourself thinking about it." "Why can't you cook, are you even a woman?" people are so rude sometimes it's sad. It's sad that as soon as the topic to write about was sexism, that so many things went through my head and it's hard to write about. It hurts, I consider myself an independent girl and a feminist. So when I hear a person saying something offensive to me or others I will be involved. I don't care what these "men" or sometimes even women who agree to things like that. It's not okay and I want my world, the people to treat men and women equal. So no matter what people say I know who I am and nothing will tear me down, not sexism or sexist jokes or sexist people.
